OPTIONAL TOUR - LA SAGRADA FAMILIA OF ANTONIO GAUDI

The Holy Family building proposes one of the most exciting experiences possible today, integrating us in the vision of a genius, Antoni Gaudí, capable of imagining at the beginning of the 20th century a building that incorporated the viewer in the process of Divine Creation, and made for almost 150 years, successive generations were involved in his dream. Something different, impossible to find anywhere else, a living element that evolves as it is concluded, together with the feelings of those who visit it and know it in depth. A monumental complex impossible to compare: a complex architectural project, a world heritage site, on whose exterior stand out its 18 towers with more than 100 meters high; its three thematic facades where Life, Death and Glory are represented by innumerable statues and symbologies based on nature and the Gospels; an interior space that allows the spiritual communion of those who enter, transferred by Gaudí to a Mediterranean forest in which the light filters with different tonalities through its stained glass windows, bathing the inclined columns branched like trees.
