## TOUR ITINERARY

### DAY 1

Destination	Quito
Meals included	Breakfast
Accommodation	N/A

The adventure gets under way in Quito, Ecuador's sprawling but refined capital city. A welcome meeting will be held this evening at either 5 pm or 6 pm where you'll get the chance to meet your fellow travellers, but aside from that you are free to check out the city on your own today. If you arrive with time to spare, perhaps head to Quito's Old Town and pick one (or more) of the 30 churches to explore.

Accommodation Hotel La Cartuja, Quito (1 night)

Meals Included There are no meals included on this day.

Special Information It's very important that you attend the welcome meeting as we will be collecting insurance details and next of kin information at this time. If you are going to be late please let your travel agent or hotel reception know. Ask reception or look for a note in the lobby for more information on where the meeting will take place.

As this trip spends very little time in Quito, we recommend you spend a few extra days before your trip if you want to experience all the city has to offer.

We recommend not partaking in any strenuous activity until you have time to gauge your reaction to the city's high altitude, as some people experience mild symptoms of altitude sickness such as dizziness, shortness of breath and sleeplessness.

Please keep in mind that this may be your last chance to buy items like sunscreen and toiletries. You may not be able to find them in the remote areas we visit on this tour.

### DAY 2

Destination	Quito ✈ Isla Baltra [Boat] Isla Santa Cruz
Meals included	Breakfast, Lunch, Dinner
Accommodation	N/A

Rise and shine! An early start is necessary this morning to make it to the Galapagos with time to play today. This could mean leaving as early as 4.30 am, and an Intrepid representative will confirm the exact departure time during the welcome meeting on Day 1. Transfer to Mariscal Sucre International Airport (AKA Quito Airport), enjoying a boxed breakfast en route.

Fly to the Galapagos (approximately 3.5 hours). On arrival, collect your luggage and meet your naturalist guide in the arrival hall. Follow your guide on a public bus for a short distance (approximately 5 minutes), then board the public ferry and head across the Itabaca Channel (approximately 7 minutes). All public transport fees are included in your trip price. Once you reach Isla Santa Cruz, board a private bus to the highlands.

After a short journey (approximately 10 minutes), arrive at Los Gemelos – twin sinkholes created by the collapse of surface material in underground fissures and chambers. They are surrounded by the unique scalesia cloud forest, so be on the lookout for the abundant bird life including different species of Darwin finches, woodpeckers, warbler finches

and vermilion flycatchers. Continue further into the highlands (approximately 30 minutes) and explore a rancho farm, where you will take a walk and enjoy lunch. An approximately 2-kilometre walk around the area will likely reveal giant tortoises in their natural habitat.

After lunch, travel to Puerto Ayora (approximately 45 minutes) where Le Grande Daphne and her crew will be waiting for you. Once on board, you'll be assigned a cabin and have a chance to settle in for your first night on the islands before a safety briefing.

Accommodation M/Y Daphne (1 night)

Included Activities Isla Santa Cruz - Highlands Visit (3 hours) - Dry Landing

Meals Included Breakfast Lunch Dinner

Special Information A USD 20 per-person transit card is payable on departure at Quito Airport and a USD 100 per-person national park entry fee is payable on arrival on the islands. Credit cards are not accepted so you will need to have cash on hand.

Please note snacks provided by the airline on the flight to the Galapagos Islands may not meet specialty dietary requirements. You will have time to purchase food for the flight after check-in and before departure to consume on the flight, though keep in mind the Galapagos has strict quarantine regulations on many fruits and vegetables.

Your flight to the Galapagos Islands will make a stop in Guayaquil to refuel and pick up other passengers.

We recommend that you wear comfortable closed-in shoes as the trails in the rancho can be muddy. You can also opt to swap into rubber boots at the farm. From January to April, it can rain heavily in the highlands, so a rain jacket is also recommended.

### DAY 3

Destination	Isla Santa Cruz [Boat] Isla Floreana
Meals included	Breakfast, Lunch, Dinner
Accommodation	N/A

Discover the quirky maritime history of Post Office Bay, home of the oldest postal system in the Americas. There's a post box here that was first built by 18th-century whalers and is still in use today. Perhaps leave a letter to be collected by another traveller or look for one you can deliver. Snorkelling and a Zodiac ride are also included in this outing. Afterwards, head ashore at Punta Cormorant where the sand is made up of fine olivine crystal, a glassy volcanic mineral that gives the beach an olive-green colour. Take a 1-kilometre walk in search of sea lions, as well as flamingos, pintails and stilts. Finish at a sandy beach where Eastern Pacific green turtles nest.

Just offshore, the famous Devil's Crown waits for those who want a special snorkelling experience. The partially-submerged remains of a volcanic cone, Devil's Crown is now a unique swimming hole and home to rays, sharks, sea lions and turtles.

Sail overnight.

Estimated travel time/distance: Puerto Ayora to Isla Floreana: 4 hours (32 nautical miles) Punta Comorant to Punta Suarez: 6.5 hours (52 nautical miles)

### DAY 4

Destination	Isla Floreana [Boat] Isla Espanola
Meals included	Breakfast, Lunch, Dinner
Accommodation	N/A

Wake up and take a hike on Isla Espanola, the southernmost island of the Galapagos. It is the breeding site for almost all of the estimated 24,000 waved albatrosses on earth. If you're lucky (and the timing is right), you might spot the elaborate courtship rituals performed by albatrosses before the female chooses her lifelong mate during your walk. Hike through booby colonies to the rocky trails of beautiful Punta Suarez. This 3-km hike culminates at a cliff-top viewpoint. Gaze out over views of rugged cliffs framed by swooping frigate birds, watching while albatross use the cliffs as their 'runway', getting airborne on the southeast winds.

Next, head to Bahia Gardner for a walk along the beach. Dodge lounging sea lions on this 1-kilometre walk, then cool off with a spot of snorkelling. The rocks off the coast are rich with reef sharks, turtles and many species of tropical fish (such as surgeon and angelfish). Small white-tipped reef sharks can also be spotted resting under the rocks.

### DAY 5

Destination	Isla Espanola [Boat] Isla San Cristobal
Meals included	Breakfast, Lunch, Dinner

Shake off any early morning doziness with a trip to Leon Dormido (Kicker Rock). This basalt crater rises 150 metres above the water and is divided into two parts by a narrow channel. Cruise through the channel as nesting seabirds flank the boat, tropicbirds soar overhead, marine iguanas swim about and sea lions lounge on the water. Snorkelling here gives you the chance to see Galapagos sharks, sea turtles and an incredible biodiversity of invertebrates living in the rock.

Later, sail to Puerto Baquerizo Moreno on the island of San Cristobal. Some passengers will be leaving and others joining the group today, so you have some free time to explore the town of San Cristobal. In the afternoon you will visit the San Cristobal Interpretation Centre, which brings the history and geography of the archipelago to life, from its

Sea lions, iguanas and hawks – oh my! Isla Santa Fe is home to all three, plus Galapagos mockingbirds, marine turtles, frigatebirds, Galapagos doves and lava lizards. This stunning island boasts one of the most attractive coves in the whole archipelago. Take a hike along the coast into the opuntia forest (approximately 1.5 hours). The trail is rocky, so mind your step.

Afterwards, continue to Plaza Sur (South Plaza), a small, picturesque island. Take another walk (approximately 1.5 hours), getting close to sea lions and passing one of the Galapagos' largest land iguana populations. The southern cliffs are great for spotting tropicbirds and swallow-tailed gulls, as well as 'the Gentlemen's Club' – a gathering of male sea lions. Today there may be an extra stop along the way to Plaza Sur to restock the provisions for the boat.

Later tonight, set sail for Isla Genovesa.

(Darwin Beach) is another superb birding site with large breeding colonies of seabirds, frigates, lava herons, swallow-tailed gulls, mockingbirds, and vampire finches.

Enjoy a moderate walk (approximately 2.5 hours) that passes tide pools, sea lions and diamond stingrays. This walk involves sand and some rocky sections. The steep Prince Philip's Steps lead you to the heart of the seabird rookeries, with birds swirling overhead and nesting among the cliffs. Look out for storm petrels on the island's rocky plains -- Genovesa is the only place in the world where these birds can be seen flying during the day. Afterwards, perhaps cool off with a snorkel, during which you could encounter manta rays, sharks, turtles and moray eels, plus many species of fish.

Later tonight, depart Isla Genovesa for Isla Santiago.

On Santiago Island's eastern coast sits Bahia Sullivan. Take a walk along pahoehoe lava (approximately 1 hour), which was created by an eruption that occurred here in 1897. With some luck you might see some marine iguanas, Sally Lightfoot crabs, sea lions, finches, turtles, sharks and penguins. During your walk, as always, your naturalist guide will take you through the geological history of the island.

Travel to Isla Rabida, known for its gorgeous red-sand beach (coloured that way due to rusting iron). This is one of the most striking islands of the archipelago. Starting at the shore, follow a walking trail (approximately 45 minutes) through to what is one of the finest lagoons in the Galapagos for viewing flamingos. Rabida is also a wonderful place to spot nesting pelicans. Elsewhere, pintail ducks, marine iguanas and sea lions are present. Here you will find opuntia cactus forest, which suggests previous existence of land iguanas and possibly flamingos, Galapagos hawks, mockingbirds, doves, finches and lava lizards. You'll have the chance to snorkel among sea stars, damsels, gobies and surgeon fish, and take a panga ride in search of wildlife.
